

HILTI CONSUMABLES MANAGEMENT

WORRY LESS. WORK MORE.
Automate management of your
tool inserts and consumables

ON!Track 3.0

HILTI CONSUMABLES MANAGEMENT

Right consumable, right place,
right time

Hilti Consumables Management gives you the power to select the exact tool inserts and consumables* you need, determine your desired stock levels, and set up automated shipments at planned intervals. Help redirect manpower and save money by eliminating the need to set up quantities and shipments manually.

Help Increase productivity

- No more wasted time locating and purchasing what you need
- Fully integrated with what you do
- Say goodbye to hidden costs and unwanted hardware store trips

Modernized replenishment

- Inventory replenished weekly, biweekly, or monthly on the date you select
- Customizable inventory levels
- Products that are ready and waiting on location

Automatic convenience

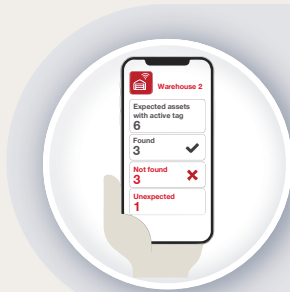

- Easy ordering to replace only what is needed
- Never miss an order deadline again
- Focus on more important tasks

† Consumables are items intended for one-time use; to be installed and remain on a project; or as inserts attached to a power tool output shaft. Accessories are items intended for multiple use as an added enhancement or feature to the tool.

HOW IT WORKS

Hilti Consumables Management*

Combining consumables management with ON!Track 3.0 makes it even easier to take control of your inventory and set the perfect inventory levels right from the palm of your hand. Re-stocking is easy; items are automatically ordered and delivered to you at the intervals you determine.

Identify the tool inserts and consumables you need

Designate your desired inventory levels

Set up customizable and automatic shipments on your schedule

Ready to know more? The Hilti ON!Track pros are here to guide you at **1-866-879-4578** or via email at hnaontrack@hilti.com.

HILTI CONSUMABLES MANAGEMENT — POWERED BY ON!TRACK

ON!Track 3.0 can now manage and replenish your power tool inserts and consumables

AUTOMATE THE MANAGEMENT OF YOUR INSERTS AND CONSUMABLES

Power tool inserts

- Maintain optimal inventory levels
- Full transparency into quantity levels
- Help reduce waste and lost materials through accountability

Consumables

- Automatic replenishment based on use
- Add or remove items at any time
- Maintain optimal inventory levels

ON!TRACK 3.0 ALSO PROVIDES THESE FEATURES AND SERVICES

Tools

- Determine tool availability with ease
- Locate your tools and see who's using them
- Help reduce downtime caused by missing tools
- Optimize your tool crib
- Help eliminate stockpiling
- Help lower the risk of theft

Safety equipment

- Receive alerts when items need to be cycled out of inventory
- Receive alerts when safety items need to be reordered
- Track service and maintenance work on safety equipment

Rental equipment

- Receive alerts for rental return dates based on project timelines
- See who the equipment is assigned to, and who needs to be contacted to initiate returns
- Run reports to track rental usage and make purchasing decisions

Certification & training

- Help keep your teams safe by digitally maintaining safety certifications
- Receive alerts for training and certification renewal dates
- Efficiently manage certification documents for inspector requests
- Immediately know who is certified to operate different tools and equipment before transferring assets to them

HILTI CONSUMABLES MANAGEMENT

Select the Hilti items you'd like to stock and replenish them on your schedule using ON!Track 3.0

THREE LINES OF CONSUMABLES

Choose the line to help meet your needs for performance, productivity, and price

●●●●●
Ultimate

Ultimate performance for demanding applications

●●●●○
Premium

Premium performance for a wide range of applications

●●●○○
Standard

Hilti quality at an economical price
