SECTION 4: First-aid measures

4.1. Description of first aid measures

First-aid measures after inhalation Remove person to fresh air and keep comfortable for breathing. When symptoms occur: go into

open air and ventilate suspected area.

First-aid measures after skin contact Gently wash with plenty of soap and water. If skin irritation or rash occurs: Get medical

advice/attention.

First-aid measures after eye contact Rinse eyes with water as a precaution. If eye irritation persists: Get medical advice/attention.

First-aid measures after ingestion Rinse mouth.

4.2. Most important symptoms and effects (acute and delayed)

Symptoms/effects after inhalation May cause respiratory irritation. Symptoms/effects after eye contact May cause severe irritation.

Potential adverse human health effects and

symptoms

Irritation: may cause irritation to the respiratory system.

4.3. Immediate medical attention and special treatment, if necessary

SECTION 5: Fire-fighting measures

5.1. Suitable extinguishing media

Unsuitable extinguishing media Do not use a heavy water stream.

5.2. Specific hazards arising from the hazardous product

Fire hazard Not flammable.

5.3. Special protective equipment and precautions for fire-fighters

Protection during firefighting Do not enter fire area without proper protective equipment, including respiratory protection.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

No additional information available

6.2. Methods and materials for containment and cleaning up

Methods for cleaning up Shovel into suitable and closed container for disposal.

For further information refer to section 8: "Exposure controls/personal protection", For further information refer to section 13

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Precautions for safe handling

The product should not be used for purposes other than those shown above without first

referring to the supplier and obtaining written handling instructions.

Hygiene measures Do not eat, drink or smoke when using this product. Always wash hands after handling the

product. Wash contaminated clothing before reuse.

OEL TWA	3 mg/m³ (R - Respirable particulate matter)	
Notations and remarks	TLV® Basis: Lung dam	
Regulatory reference	ACGIH 2025	
Canada (Saskatchewan) - Occupational Exposure Limits		
Local name	al name Tungsten, (as W): metal and insoluble compounds	
OEL TWA 5 mg/m³		
OEL STEL 10 mg/m³		
Regulatory reference	The Occupational Health and Safety Regulations, 2020. Chapter S-15.1 Reg 10	

8.2. Appropriate engineering controls

Appropriate engineering controls

Ensure good ventilation of the work station. Use dust removal system, vacuum cleaner, air cleaner; cooling water cleaner (Hilti WMS system).

8.3. Individual protection measures/Personal protective equipment

Personal protective equipment:

Dust formation: dust mask. In case of dust production: protective goggles. Gloves. Protective clothing.

Materials for protective clothing:	
Condition Material	
	Flame retardant protective clothing

Hand protection:				
Wear leather gloves.				
Туре	Material	Permeation	Thickness (mm)	Penetration
	leather gloves			

Eye protection:		
Safety glasses		
Туре	Field of application	Characteristics
Safety glasses	Dust	

Skin and body protection:	
Wear suitable protective clothing	

Respiratory protection:		
Where exposure through inhalation may occur from use, respiratory protection equipment is recommended		
Device Filter type Condition

Other information:

Hazardous dust of the workpiece material may be generated during grinding / drilling and / or sanding operations. National regulations for dust exposure limit values have to be taken into consideration as part of the job hazard assessment.

Most of the dust generated during grinding is from the base material being ground and the potential hazard from this exposure must be evaluated. This dust may present a fire or dust explosion hazard and may present a serious health hazard.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state Solid

Appearance No data available

Colour Silver-grey to copper-colored

Odour odourless

Odour threshold No data available No data available Relative evaporation rate (butylacetate=1) No data available Relative evaporation rate (ether=1) No data available Melting point No data available Freezing point No data available Boiling point No data available No data available Flash point Auto-ignition temperature No data available

Decomposition temperature > 400 °C

Flammability (solid, gas) No data available No data available Vapour pressure Relative vapour density at 20°C No data available No data available Relative density insoluble in water. Solubility Partition coefficient n-octanol/water (Log Pow) No data available Viscosity, kinematic No data available **Explosive limits** No data available

9.2. Other information

No additional information available

SECTION 10: Stability and reactivity

Reactivity The product is non-reactive under normal conditions of use, storage and transport. Product is not

explosive.

Chemical stability Stable under normal conditions.

Possibility of hazardous reactions
No dangerous reactions known under normal conditions of use.

Conditions to avoid

No additional information available
Incompatible materials

No additional information available
Hazardous decomposition products

No additional information available
Hardening time:
